

**Dr. Mike Antos**

**Senior Watershed Manager with the Santa Ana Watershed Project Authority**

*Two events exploring current challenges for sustainability and collaborative water governance in California, and pathways for scholar-practitioners interested in hydro-social issues and sustainability-oriented work.*

**Monday, April 30th**

**Graduate Student Seminar  
12:00-1:00pm in SBSG 3323**

Join us for a discussion on civic ecology, resilience, and environmental justice under climate change. What might a California ecotopia look like, and how can we transform our relationships to environmental labor?

Please RSVP to [Emily Brooks \(ebrooks1@uci.edu\)](mailto:ebrooks1@uci.edu) to receive the readings for the seminar.

**A Conversation with SAWPA's Mike Antos  
3:30-5:00pm in SBSG 1517**

Dr. Antos will share his experiences as a hydro-social scholar-practitioner, and reflect on recent transformations and current challenges for collaborative water governance in California. Faculty, students, and staff welcome. Light refreshments will be served.

*Mike Antos is a Senior Watershed Manager for the Santa Ana Watershed Project Authority, facilitating the One Water One Watershed program and leading engagement with members of disadvantaged communities for collaborative watershed management. Mike holds a PhD in Geography from UCLA where he remains a member of the Water Resources Group of the Institute of the Environment and Sustainability. He is a founding board member of the Mediterranean Cities Climate Change Consortium, and is a Fellow of the Robert & Patricia Switzer Foundation. Mike serves as co-chair of the American Water Resources Association Integrated Water Resources Management technical committee.*
